

## About Us

*Pawsitively Pets, LLC is owned and operated by Wooster native Amanda Eick-Miller, RVT, CPDT-KA. Seeing the growing need for training services in the Wooster area Amanda started the company in 2007 after providing behavior services in veterinary practice for 8 years.*

*Amanda owns a 12 yr old Clumber Spaniel named Sally and PunkE the 7 yr old cat. Her newest edition is a German Short-haired Pointer puppy named Brego who she hopes will enjoy field trials and agility.*

## "Scrapbook"

Amanda's Kent State University Vet Tech program students prove you can train cats!

The happy beagle dance by clients Bekah & Millie of Ashland.

A puppy class demonstration of "How to prevent sweeper attacks".

## Pawsitive Solutions for Busy Lives

Pawsitively Pets, LLC provides individualized in home training to solve your pet problems fast!

When dealing with car problems we don't try to fix them ourselves, we call a professional. Why should pet training be any different?

At Pawsitively Pets, LLC we want to make pet training easy and fun! Our extensive training and expertise is brought to you in your home at a time convenient to you.

Whether you have a new puppy, a cat that is not using the litter box, or an out of control older dog, we can help!

### We're Certified!

Our trainer is a Certified Professional Dog Trainer and Registered Veterinary Technician. Amanda is one of only 48 CPDT's in Ohio and 20 RVT's in Wayne county. For more information:

[www.CCPDT.org](http://www.CCPDT.org) & [www.OhioRVT.org](http://www.OhioRVT.org)

### Why choose in home training?

Where else should your pet learn? The majority of pet behavior problems occur in the home or while out and about in your neighborhood. Solving problems where they happen just makes sense!

We make training easy by setting your pet up for success. Seeing what you have available to work with in your home helps us save you time and money. During our sessions we'll go over tips that can decrease and eliminate problem behavior that work with your home layout and lifestyle.

### What can we expect?

When you call Pawsitively Pets, LLC you will be working with a trained and certified behavior professional. We'll set up an initial consultation where we come to your home, discuss your behavior or training concerns, and create a written training plan based on your goals.

To keep things simple, we then implement the training program for you! Each week we'll set up a family meeting where we can go over your pet's progress, demonstrate your pet's new skills, and have your pet perform them for you.

During your pet's training program you'll receive email and phone support. Information on training techniques, updates on your pet's progress, and links to online training videos are sent directly to your inbox!

### Do you offer classes?

We offer puppy classes for puppies ages 8 weeks to 4 months. Classes are located at Cleveland Road Animal Hospital and are held on Thursday nights from 7-8 PM. Enrollment is open to the public.

Start your puppy off on the right paw! Our puppy classes focus on problem prevention by covering common puppy problems like: chewing, mouthing, leash pulling, jumping, and item stealing. In addition, your puppy will learn: sit, down, leash walking and handling exercises for nail trims, grooming, and vet visits.

Classes are set up to allow for new members to join each week—no waiting for the "next" class!

To enroll in class or schedule an appointment:
